

A Little More

V1

We took a little time off
To find a little get lost
Took a little country drive
On-a-county road with no lines
Built a little campsite
Wrapped up in the moonlight
Yeah I'll take a little more of what we had last night

Needed some downtime
To breath-in a little outside
Somethin' about campfire light
In your eyes - what a sight
You and me all alone
As Mother Nature sings our song
Wrapped up - in the moonlight - lakeside
Yeah I'll take a little more right now

Chorus

I'll take another sweet kiss from your warm lips
When I'm holdin' you everything feels so right
Gimme your soft touch and your strong love
Sittin' up and talkin' till the sunrise
Yeah I'll take a little more of what we had last night

V2

A little more outside
A little more Tennessee shine
Not another soul in sight
Lost in your eyes
A little more midnight sky
A little more you and me tonight
Wrapped up - in the moonlight

Chorus

I'll take another sweet kiss from your warm lips
When I'm holdin' you everything feels so right
Gimme your soft touch and your strong love
Sittin' up talkin' all night
I'll take another sweet kiss from your warm lips
When I'm holdin' you everything feels so right
Gimme your soft touch and your strong love
Wrapped up - in the moonlight - lakeside
Yeah, I'll take a little more of what we had last night
