

Better Off

V1

Sparks are flyin' 'tween you and me
Ain't no doubt there's chemistry
Wanted you the day we met
What you see ain't what you get
I'm that guy mammas warn you about
But it's up to you

V2

Bad choices, my story
Had some troubles, no degree
Drink and smoke too much
Foul mouth, tend to cuss
I take the dares and walk the ledge
But it's up to you

Chorus

Bet you're better off without me
And it's best I'm on my own
So if better off's what you need
We'd better leave better off alone
Best leave better off alone

V3

This bad boy will try to settle down
If you just say you'll stick around
Can't change who I am
Or the things I've done
Can't say I didn't warn you
No it's up to you

Chorus
