

Big Splash

V1

Class reunion, party by the pool
Relivin' glory days, actin' cool
Braggin' 'bout jobs, stuff they own
Fun in the sun, 'til you walked in all alone

You were the girl nobody talked to, not a lot of friends
Like a ghost, after school, you vanished into thin air
Easily forgotten, until today
Least likely to succeed, but that's about to change

Chorus

Cause you had all the girls talkin, boys were all gawkin'
Heads turnin' so fast, causin' whiplash
In your teeny bikini, million dollar smile
Battin' those lashes, made the temperature rise
Couldn't get any hotter and this is a fact
You never touched the water, but girl you made a big splash

V2

Blowin' every mind, with your lady like class
Way you walked, talked, held that wine glass
A new butterfly, flowin' with grace
Hard to describe the look on every face

Chorus

Bridge

But what I'd really love to know, tell me now
How did it feel to be the envy, talk of the town
Standin' in the spotlight, baskin' in the limelight
And queen by the end of the night

Chorus

You had all the girls talkin', boys started flockin'
Yes they did
You had all the girls talkin', boys were all gawkin'
Heads turnin' so fast, causin' whiplash
In your teeny bikini, million dollar smile
Battin' those lashes, made the temperature rise
Couldn't get any hotter and this is a fact
You never touched the water, but girl you made a big splash
