

## **Branded**

### **V1**

Fell head over heels, without a second thought  
Let you make me yours, never even fought  
Losing myself, now you've thrown it all away  
Like yesterday's trash, all I do is pray  
To survive whiplash, saving myself

### **Chorus**

You lassoed me in, wrestled me down  
Now my heart's in two, all because of you  
You branded me  
Oh, you branded me

### **V2**

All your red hot words, singed my skin  
Scorched my soul, frayed all my nerves  
When you walked away, with your hands in the air  
Just like you won, now I know  
This has to be my last rodeo

### **Chorus**

You lassoed me in, wrestled me down  
Now my heart's in two, all because of you  
Yes, I've been roped and tied  
Scorned and burned  
You made a nasty mark  
One I didn't want  
Oh, you branded me

### **Bridge**

Like a Phoenix from the ash, yes, I'll rise again  
With my shit kickers on, and my spurs dug way in  
Hold on for life, won't be thrown again  
I won't forgive, but sure wanna forget

**(Repeat Chorus)**
