

Easy Gone

V1

Under a spell, I can't seem to shake
Just one night, not really a date
Last thing I wanted was a firework
Here and gone faded like a blur
You said you'd just rather forget
Whatever happened, said you regret
Too much to drink, not enough sleep
A night you wouldn't wanna repeat

Chorus

Under the star filled night
Layin' back in our seats felt right
Holdin my hand so tight
Or was it the way you kissed my lips
Without a soul in sight
Neither put up a fight
Girl, did I fall, you didn't at all,
you're easy come, easy gone

V2

Sittin' here figurin' out what I've done
Yesterday I was number one
Last night tequila was flowin' strong
Line by line, we were singin' songs
Made me feel like a real man
One that you could love and understand

Chorus

Bridge

From the floor to the ceiling I wanted more
It's a feeling I've never felt before
You and I'd made a perfect team
But now I'm livin in this bad dream

Chorus
