

Forever Girl

V1

Like a ray of light on a cloudy day
You float across the room
Check my speed, and pump my brakes
Don't wanna move too soon, no
Like tomorrow's hope
You push me to run a little farther
Take a deeper breath, leave nothin' left
Work a little harder
Oh, let me tell you.

Chorus

Baby girl, you're a spectacle
I'm tangled up in your curls
Ya got it goin' on, havin' fun
Love's alive, spring has sprung
You are my forever girl
You are my forever girl

V2

You're a radio signal from outer space
Showing me signs of life
You're all law and order
I'm out of place like Barney Fife, yeah
Locked up like the asteroid belt
Orbiting the sun
Broken pieces, ice and stone
Who knows what we'll become
Oh, I Gotta tell you

Chorus

Bridge

Like a velvet painting of the king
Ultra violet, super cool
You're Hollywood, but hometown
Like Marilyn, you're old school
Early when you're runnin' late
Never need a pass, no
Like Rolls Royce and Bentley
You're surely built to last

Chorus

Outro

Got tunnel vision, quick decision
You're a wishin' well and I'm wishin'
I'd marry you, carry you
Be the spark to your flame
Oh by the way, what's your name?
