

Front Porch Kiss

V1

Picked you up, quarter til 7, that was our plan
Simple night out, dinner and a movie, started as friends
Wasn't looking for forever, just a little fun together
No great expectations, didn't need the complication,
Never thought it'd end up like this

Chorus

It was that front porch kiss, that did me in
Now I'm all confused, a total mess, turned upside down,
How did this happen to me?
I still taste your lips on my lips
It was that front porch kiss

V2

Thought I played it off cool, but truth is, I was scared to death
Pulled over when I realized I'd been talkin' to myself
Why wouldn't we just try it once, maybe for a few months
Maybe you and me could be the perfect combination
Maybe fallin' in love is worth the risk

Chorus

Solo

Bridge

(Now here I am)
Standin' in your front lawn, the sprinklers just kicked on
Soakin' wet, tossin' pebbles at your window
Lights come on, I meet you as you run out the door
And we're back to the moment, no more denyin' it
You and I, collide, both of us ownin' it
And here we go again (vocal up)

Chorus

We're back to that front porch kiss, baby it did me in
I was all confused, a total mess, turned upside down,
How'd this happen to me?
I still taste your lips on my lips
From that front porch kiss
All because of that front porch kiss
