

Lay It On Me

V1

Today, hasn't gone your way
And 5 o'clock's eight hours away
The stresses of this crazy life
Are gettin the best of you
Your coffee's cold and your heads a mess
And baby you just need to vent
It's a pressure cooker you're livin in
And you just feel like givin in...so

Pre

Come to me, let me set your soul free
I got no place to be tonight, so you can

Chorus

Lay it on me, tell me how you feel
Won't try to solve your problems
Girl, share with me your fears
And lay it on me, oh baby just let it go
I'll listen to every word you say
Don't shed those tears alone
Lay it on me, yeah

V2

There's a life outside, I can't control
But you can count on me, I hope you know
Nothin's more important
Than what's goin' on with you
Rest your heart, ease your mind
Just close the door, leave the world behind
We can focus on the here and now,
And get you through the night, yeah

Pre

Hold on, let me turn off my phone
I got no place to be tonight, so you can

Chorus

Bridge

Or we can lay in silence to clear your head
Stay forever in this bed, ah yes
Heart to heart; soul to soul
Honey I'll never let you go
Holding you, protecting you
