

## **Think Like A Girl**

### **V1**

Think like a girl you said, climb inside your head  
Uncover the secret to what drives you crazy  
Think like a girl you said, capture your heart and then  
I'll hold the key that unlocks your mystery

### **Chorus**

Oooo love to understand - read your mind  
And know what you're feelin'  
Oooo gonna try my best - give you all I've got  
Wanna know what you're needin'  
If I could get behind your eyes 'n see  
What's pink to you is blue to me  
I can try and give you the whole world  
But I can't think like a girl

### **V2**

Think like a girl you said, easy to say I guess  
But I'm from Mars, and you're from Venus, baby  
Try to understand I'm only a man  
I can dig a little deeper, but I'm already over my head

### **Chorus**

### **Bridge**

I'll keep holdin' you and kissin' you  
Lovin' you and tellin' you you're beautiful  
I'll take all of you, give all of me  
You're all I want and all I need  
Baby you're my whole wide world  
But I can't think like a girl

### **Chorus**
