

Who You Say

V1

We were too young, to know about forever
Cause forever was forever away
Maybe too young, to know how good we were together
Cause that's what everybody says

Pre

But life came along, like it always does
And we moved on, oh just because

Chorus

If I believed for a minute I could change your mind
If I thought for a second that you could be mine
There's nothin' I wouldn't do
To change who you say I love you to
If I could go back and change the hand of time
Back to the beginning, hit rewind
There's nothin' I wouldn't do
To change who you say I love you to

V2

He bought you a ring,
Yeah that's what you always wanted
All you wanted was your own family
If I could promise the world
Would that change your direction
Or have you found the one that fills your dreams

Pre

Is it too late, to steal ya
Have you set the date, wanna tell you how I feel

Chorus

Bridge

I'll be to blame, if you refuse
Everything to gain, or you to lose

Chorus

Tag

To change who you say, change who you say
Wanna change who you say I love you to
