

You Are My Answer

V1

We are not alike at all, but we have a ball, anytime, anywhere
And we don't even like the same things, you're a margarita and I'm a beer
My life is in the fast lane, while you are in first gear, and I love that
But when times get tough, and they always do, we have each other's back

Pre Chorus

You're the open ear, to soothe my fears
I'm the warm embrace, your happy place
Yes we complement, sometimes contrast,
Yes we do, but

Chorus

If opposites attract, then I think they may be right
Cause, you would be the daytime, I would be the night
You are my sun, I am your moon
You were made for me, and I was made for you
See it in your eyes, read it on my face
Some would call it luck, I choose to call it fate
I am your mountain, you are my valley
If love is the question, you are my answer

V2

We don't ever root for the same team, except for when it comes to you and me
When you're hot, I'm cold, you're meek, I'm bold, me a little salty, you're so sweet
But when it gets to when I need a friend, you're always the one I'll turn to
And when you need a little lovin', there's no one can make you feel the way I do

Pre

You're my best friend, 'til the bitter end
I'm your glass of wine, you're my cloud nine
Yes we complement, sometimes contrast
Yes, we do, but

Chorus

Yes, we complement, sometimes contrast

Chorus
